DANILO SPINOGLIO

Category: Cantine
business description: "In the heart of Monferrato in a setting of green vined hills, Cascina Narzo dominates the landscape surrounded by renowned vineyards; ancestors of the great wines of Monferrato. Noble wines made not only from the combination of climate factors, soil, grape variety, but also by the ongoing commitment of those who passionately follow each stage of the growing season from pruning to bottling. An effort made with heads held high by those who firmly believe in their product, looking for the highest levels of quality.
The cellared wines are full of passion and life, a testament to generous mother nature who nurtures and yields the wintering shoot, transforming grape must into wine, delicious nectar and star of some of life's happiest moments, conveying feelings and emotions.
